

2026-2027 TUITION and Fees

The total cost to educate each student is \$4,800 per year, but we do not charge this amount. We charge \$1,000 less per student, approximately \$3,800, leaving a gap to be covered through fundraising. The tuition charged per student does not cover the school's operating expenses. We rely on donations and fundraising to offset the actual cost of education. Therefore, the difference in tuition paid must be made up through fundraising and donations by each family. Families are encouraged to actively participate in fundraising activities to maintain affordable tuition. Our fundraising goal is \$90,000 per school year.
